

The future is Europe. **EUTOP**

„The beginnings of all things are small“

[Cicero]

We too started small. Today we are number one in Europe.

The name of our future is Europe.

With its current 27 member states the European Union is one of the world's most dynamic economic regions. It is still only beginning to realise its possibilities.

The new Europe.

The common path to the future.

Europa - who legend has it, was a Phoenician princess - was carried off by the Greek god Zeus in the shape of a bull to the land that in future was to bear her name: Europe.

The bull is a symbol of a dynamic stock market and economy. The virgin Europa symbolises an association of states with a tremendous future. Like the founding fathers of the EU, we too have faith in the future of a united Europe.

Today we are at home in the heart of Europe - in Brussels. Anyone who wants to be successful in Europe has to be where most of the important decisions are taken.

Seeing where the future lies.

In 1990 EUTOP was founded. In 1993 the European Union was launched.

Although EUTOP was founded back in 1990, when the European Union did not yet exist and another two years were to pass before the Maastricht Treaty was signed, we already regarded EU-Europe as one economic and political entity, whose heart beat in

Brussels. EUTOP's business model was a result of this conviction.

Today EUTOP International GmbH located in Munich has subsidiaries in Brussels and Vienna, a further office in Berlin as well as representative offices

in London, Paris, Beijing, Tokyo and New York. Thanks to its direct and longstanding proximity to the decision-makers, EUTOP has a comprehensive and stable network for supporting the realisation of our clients' interests, ideas and visions.

Governmental relations – in your interest.

EUTOP provides a structured representation of interests for private companies and organisations vis-à-vis the institutions of the European Union and its member states. With its subsidiaries in Brussels and Vienna, a further office in Berlin as well as representative offices in London, Paris, Beijing, Tokyo and New York, EUTOP International GmbH is the market leader in the field

of process-oriented structural governmental relations” (PSGR®).

In keeping with its business model EUTOP acts primarily as a manager of processes, whereas the client basically provides the content. In acting for its clients EUTOP operates on a structural and not just on a project-related basis and devotes itself exclusively to

“governmental relations”; i.e. targeted communication with decision-makers of the executive and legislative branches.

Dr. Klémens Joos
Managing Director
EUTOP International GmbH

We would like to thank our clients,
business partners and staff for so many
years of successful and trustful co-
operation. We are looking forward to
our shared future.

Since 1990 intelligent services for your success.
